NOTICE!!

Read the instructions that come with your router and **CHANGE YOUR ROUTER'S DEFAULT ADMIN USERID AND PASSWORD!**

Crackers know the default administrator's userid and password for every router, firewall, server, operating system, and., more -- ever made.

Check out <http://www.phenoelit.de/dpl/dpl.html> if you do not believe me.

Router vendors offer updates for their firmware to add new features and to resolve problems found by their customers. Check with the vendor for updates
